Project 4 Peer Review

Joshua (me): I mostly worked on the getting the python part of the project to work and updated the ALU to do exponents

Desh Padmakumar: Desh worked on the Top down diagram, and the general system design

Gabriela Saenz: Gabriela worked on updating the system design

Matthew Lineberry: Matthew worked on the system design and helped troubleshoot the code

Reg Gonzalez: Reg worked on the system design and state transition diagrams

Overall I feel like every person in our group made equal contributions to the project
